Peterborough, March 24th 2017

Heritage committee of the City of Peterborough

Re: request to expand our present deck at the backside of 583 King Street in Peterborough and incorporate a swim spa/aqua trainer, by Ann Laughlin and Kick van Lunenburg

Dear Eric and committee,

Please find as attachment paperwork for increasing our present deck and incorporating a swim spa (continuous pool, or endless pool)

- 1) Overview of our property King Street 583 in Peterborough with the appropriate property lines and our present layout
- 2) Drawing on the same scale, including the swim spa/aqua trainer into an expanded deck in our backyard. The expansion includes:
 - a) Expansion of deck into the back yard, and include a swim spa in the structure
 - b) Erect a fence with appropriate gate/lock in-between the deck and the garage
 - c) Erect an open gazebo above the swim spa to make it 4 season proof
- 3) Same drawing but with a to scale drawing of the swim spa with gazebo
Dimensions in feet (in length), swim spa is 7.75ft x 14.5ft, extended deck to the left of the picture 3.25ft wide x 18ft length. The width of the total is expansion is 14.5ft, which stays within the total existing deck width of 18ft, so visually from the road, there are no objections/outsticking obstacles etc. As mentioned the current existing deck is remaining in place.
The fence with gate to close off the backyard will be approx. 5ft (1.50mtr) high.
All other fence around the backyard is or will be a minimum of 1.22mtr as required by bylaw.
- 4) Our own drawing of the gazebo is included, according to the principle as demonstrated by how-to-specialist.com, section gazebo plan
- 5) For railing we propose the same wood structure with tempered bronze glass ¼", see example on page 5, railing will be installed according to guidelines of the city
- 6) On addendum 6 we demonstrate that our backyard addition will not go further into our backyard than our neighbours back yard structure
- 7) Overview of how the expansion will be realized, gazebo with a see through view of the swimspa
- 8) Information on Hydropool Aqua trainer/swim spa, thereunder an example of the proposed installation. The only difference is the railing, which will be wood with ¼ " tempered glass

Thank you for your cooperation.

Hydropool Self-Cleaning 14iX AquaTrainer

The AquaTrainer 14iX is a quintessential universal aquatic gym with a generous swim tank area with a flat anti-slip floor that allows for a variety of fitness routines.

The option packed swim tank features everything you need to strengthen, tone and shape your body through resistance training while you are suspended in buoyant weightlessness. You can swim stationary laps for a full body workout, row to work the upper body and arms with our rowing system, run or jog underwater in place for a cardiovascular workout, or get a massage with the adjustable hydrotherapy jets.
