

City of
Peterborough

TO: Members of the Peterborough Architectural Conservation Advisory Committee

FROM: Erik Hanson, Heritage Resources Coordinator

MEETING DATE: May 14, 2013

SUBJECT: Report PACAC13-015
London Street Generating Station Presentation

PURPOSE

A report to introduce a presentation by MKE Consulting Engineers on the proposed London Street Generating Station expansion project.

RECOMMENDATION

That the PACAC approve the recommendation outlined in Report PACAC13-015, dated May 14, 2013 of the Heritage Resources Coordinator as follows:

That the presentation on the London Street Generating Station Expansion be received for information.

BUDGET AND FINANCIAL IMPLICATIONS

There are no direct budget or financial implications resulting from this report.

BACKGROUND

Peterborough Utilities, Inc. is proposing to expand the London Street Power Generating Station to increase the generating capacity at the site. The expansion will include the construction of a new building to the southwest of the existing structure. The Committee had expressed concern that the new construction compliments the heritage structure. Karen McGhee from MKE Consulting Engineers is part of the consulting team completing the Environmental Assessment for the project and will address the Committee to provide detail on the proposed design.

Submitted by,

Erik Hanson
Heritage Resources Coordinator
