

City of
Peterborough

TO: Members of the Waste Management Steering Committee

FROM: W. H. Jackson, Director of Utility Services

MEETING DATE: September 10, 2012

SUBJECT: Report WMC12-001
City Waste Management Master Plan - Update

PURPOSE

To provide the Committee with a progress report on the City's Waste Management Master Plan (WMMP).

RECOMMENDATION

That the Waste Management Committee endorse the recommendation as outlined in Report WMC12-001 dated September 10, 2012, of the Director of Utility Services as follows:

That Report WMC12-001 providing the Committee with a progress report on the City's Waste Management Master Plan be received for information.

BUDGET AND FINANCIAL IMPLICATIONS

There are no budget or financial implications as a result of this report.

BACKGROUND

The City's last Waste Management Master Plan (WMMP) was completed in 1993 as a joint City/County of Peterborough plan, and is very outdated. A new WMMP, intended to provide strategic direction to the City for optimizing residential solid waste programs for the next twenty years, was initiated in July, 2011. Cambium Environmental was the consultant hired to complete this study.

The draft of the completed WMMP will be presented at the October 20th, 2012 Public Information Centre for this project, to be held at the Green Expo event. Comments from the public will be solicited at this event. These comments will be incorporated into the final draft of the Plan, which is expected to be presented to City Council on December 3, 2012.
