Background

On October 28, 2020, Ontario announced the COVID-19 Resilience Infrastructure Stream (“COVID Stream”), under the Investing in Canada Infrastructure Program (ICIP) in Ontario. On November 6, 2020 the City was advised that its allocation under the COVID-19 Resilience Infrastructure Stream is \$1,054,190.

On December 1, 2020 Staff submitted a report to City Council (CSD20-007 Investing in Canada Infrastructure Fund – COVID-19 Resilience Infrastructure Stream Funding), requesting that Council approve the application to be submitted for the funding stream, and if successful that a \$3.25 million 2020 capital project be created.

The project scope includes demolition and replacement of the Dectron Unit, which is the Aquatic Heating Ventilation and Air Conditioning (HVAC) system. Renovations of the existing three (3) changeroom spaces, reconfiguration of existing office, boardroom and café spaces to allow for increased changeroom space and design focused on distancing measures. Relocation and build of the reception desk area are required to obtain AODA (Access for Ontarians with Disabilities Act) and COVID standards.
