A Message from the Accessibility Compliance Coordinator

In 2015, Ontario celebrated the 10th anniversary of the Accessibility for Ontarians with Disabilities Act (AODA). This landmark law has made Ontario a leader in accessibility. Year 2015 also marked the half-way point on our province's journey towards the goal of creating an accessible Ontario for people with disabilities by the year 2025.

Peterborough has made great progress to be more accessible and this is something we can all be proud of. The City's 2012 to 2016 Accessibility Plan highlighted a five year accessibility work plan with many ambitious goals. Our approach to accessibility planning has effectively identified, removed and prevented barriers.

Accessibility is built into many of our key processes and strategies. This includes budget planning, purchasing of goods and services, facility projects, policy development and strategic planning.

We are thinking-researching-consulting about accessibility at the start of every process. Existing barriers are being removed and we are preventing new ones.

Everyone is likely to be affected by a disability at some point in their lives. It may be a direct personal experience or an indirect experience through family, friends or coworkers. Accessibility helps everyone. It strengthens our society, our economy and our quality of life. Most important, an accessible Peterborough will demonstrate our shared commitment to each other and reinforce the values of decency, fairness and respect for individual dignity.

With the help of committed staff, thoughtful input from our Accessibility Advisory Committee and support from the community, we will continue to make accessibility a part of the way we do business every day.

Mark Buffone

Accessibility Compliance Coordinator
City of Peterborough

Introduction to this Status Report

In January 2013, the City of Peterborough published the 2012 to 2016 Accessibility Plan. The plan outlines the City's strategy to prevent and remove barriers to accessibility. It is a five year road map to help Peterborough become accessible by 2025, contributing to the AODA goal of an accessible Ontario.

The purpose of this status report is to provide an update on the 2014 and 2015 progress towards meeting the goals of the City's five year Accessibility Plan. The previous 2013 status report described two main areas of success: compliance with the AODA and improvements on thinking about accessibility at the start of every process. In 2014 and 2015, we maintained our compliance obligations, but moved from thinking about accessibility to thinking-researching-consulting about accessibility as a way we do business every day. We are still working towards removing existing barriers and are now providing a lot of thought on new projects to prevent new barriers.

We continue with our commitment to demonstrate leadership for accessibility in the community. Our goal is to provide inclusive goods, service, information, employment, transportation and public spaces for the diverse needs of all people.

and compliance reports at:**

City of Peterborough's Accessibility Plans, Policies, Reports
(www.peterborough.ca/Living/Accessibility_News/Plans__Policies__Reports.htm)

Overview of Accessibility Legislation

Three pieces of complementary legislation have a major impact on accessibility in Ontario: Ontario's Human Rights Code (HRC), Ontario's Building Code (OBC) and the Accessibility for Ontarians with Disabilities Act (AODA).

The HRC has primacy and sets out the legal duty to accommodate people with disabilities. The OBC sets minimum accessibility standards for buildings. The AODA came into force in 2005 and sets out a clear goal and timeframe to make Ontario accessible by 2025.

The AODA is no ordinary piece of legislation. It is an ambitious means to ensure the inclusion of people with disabilities. Ontario is the first jurisdiction in the world to enact specific legislation establishing a goal and time-frame for accessibility. Ontario is also the first jurisdiction to make accessibility reporting the law and has established standards so people living with disabilities can enjoy increased participation in their communities.

The following sections highlight the actions taken by the City of Peterborough to comply with the requirements of accessibility legislation.

The **AODA is the Accessibility for Ontarians with Disabilities Act, passed in 2005**

This Act is meant to create accessibility for all Ontarians with disabilities by January 1, 2025.

2014 +
2015

Notable Accomplishments

Notable 2014 + 2015 Accomplishments

The Accessibility Office and the City's Accessibility Advisory Committee participate in the planning process for many events and projects that are initiated every year. The work includes thinking about the fine details, researching best practices and consulting with the right people using an accessibility lens. The following list highlights important accomplishments that helped to identify, remove and prevent barriers to accessibility in the City of Peterborough.

Special Events

- Hosted "Pan-Am Games torch relay" along an accessible route on June 4, 2015
- Hosted "10th Anniversary of the AODA" celebration with the AMCTO on April 8, 2015
- Hosted "International Day for Persons with Disabilities" event on December 3, 2014

Partnerships

- Peterborough County-City Health Unit (PCCHU): advised on renovations to 185 King Street
- Peterborough Housing Corporation: advised on details of ramp at 526 McDonnell Street
- Ontario Building Officials Association (OBOA): workshop on accessibility changes to the OBC
- Peterborough Business Improvement Area (BIA): planned an accessibility employer forum
- Sunshine Homes Non-Profit: advised on renovation to accessible unit at 572 Crystal Drive
- Trent University: AODA compliance and resource sharing
- Fleming College: AODA compliance and resource sharing
- Ministry of Natural Resources & Forestry: AODA compliance and resource sharing
- Ontario Network of Accessibility Professionals: AODA compliance and resource sharing
- Epilepsy Toronto: adopted an "Epilepsy Simulator" course to train City staff

Visioning Plans

- Contributed to Vision 2025: 10 year strategic plan for recreation, parks, arena, culture
- Contributed to the development of the Peterborough Age-Friendly Peterborough plan
- Contributed to the Stewart Street Active Neighbourhood Canada project

Customer Service

- Provided advice to make the 2014 municipal election as accessible as possible
- Created a City of Peterborough Accessibility Advisory Committee brochure
- Purchased new water wheel chair for Peterborough Sport and Wellness Centre pool
- Consulted with staff and the public on a proposed City Hall way-finding system
- Developed a Social Media Policy to allow alternative method to access to City information
- Developed a scent-free awareness program
- Installed evacuation chairs in various City facilities
- Developed a mandatory "Accessibility Standards for Customer Service" e-learning course

- Developed a refresher customer service course “Focus on the Person, Not the Disability”
- Circulated “Guide to Accessible Festivals & Outdoor Events” to local organizations

Human Rights

- Developed duty to accommodate policy template for City affiliated housing providers
- Lobbied Canadian Standards Association (CSA) regarding elevator button size

Employment

- Performed ergonomic assessments and retrofitted workstations to be accessible
- Organized modified work duties for staff with temporary disabilities
- Delivered Mental Health 101 training to staff
- Developed a Return to Work/Employment Accommodation procedure

Information and Communications

- Provided accessible document workshops to key City staff
- Developed an accessible document video tutorial on how to use MS Word “styles” tool
- Created various fillable PDF forms for the Tax Office, Heritage Office and Holnbeck Award
- Reformatted the City’s Purchasing By-law to be accessible
- Formatted the Peterborough Sport & Wellness Centre program guides to be accessible
- Revised corporate memorandum and fax templates to be accessible
- Provided website accessibility training to key City staff
- Improved website accessibility prior to AODA compliance deadline
- Created a web page to list the City’s accessible washrooms, parking spaces and playgrounds
- Provided advice on a web-based communications system for Waste Management
- Provided advice on live streaming video for Council meetings
- Provided close captions on the 2014 municipal election information videos
- Provided advice on the electronic sign by-law review
- Provided advice on Peterborough Memorial Centre electronic signage on Lansdowne Street
- Purchased accessible automatic banking machines for various City facilities

Peterborough Transit

- Assisted Peterborough Transit with on-going work to improve Handi-Van level of service
- Installed 14 new accessible bus stops with concrete pads.
- Purchased six new conventional buses, increasing accessible fleet to 90%
- Implemented designated priority and courtesy seating on the conventional vehicles
- Incorporated audible stop announcements on the conventional vehicles
- Implemented the no fare for a support person program for Transit services

Parks and Playgrounds

- Consulted on natural turf sport fields at Pioneer Road and Nassau Mills Road
- Consulted on Steve Terry Way and James Stevenson Park
- Consulted on Beavermead Campground upgrades: added four accessible sites

- Consulted on King Edward Park construction of new washroom building and walkways
- Consulted on accessible features of Ashburnham Memorial Park playground
- Consulted on accessible features of Walker Park playground
- Consulted on accessible features of Beavermead Park playground

Streets, Sidewalks, Trails and Parking

- Updated City of Peterborough Engineering Design Standards to meet AODA
- Increased number of accessible pedestrian signals from 5 locations to 15 locations
- Adjusted the sound level of the locating tone for accessible pedestrian signals
- Consulted on Ashburnham Drive reconstruction from Maria Street to Lansdowne Street
- Consulted on Brealey Drive reconstruction from Sir Sandford Fleming Drive to Lansdowne
- Consulted on Parkhill Road West reconstruction from Wallis Drive to Brealey Drive
- Consulted on Riverside Drive reconstruction from Monaghan Road to Cameron Street
- Consulted on George Street improvement project from Sherbrooke Street to Perry Street
- Consulted on Donegal Street reconstruction from McDonnell Street to Murray Street
- Consulted on Bethune Street reconstruction from Dublin Street to Townsend Street
- Consulted with Utility Services on the Provision of Sidewalks policy
- Consulted with Utility Services on the Active Transportation by-law
- Consulted on expansion of cycling lanes on McDonnell, George and Water Streets
- Implemented installation of tactile attention indicators for all sidewalk projects
- **Retrofitted x step curbs with depressed curbs**
- Installed 5.5 kms of new sidewalks along existing streets that didn't have sidewalks
- Reconstructed 16.5 kms of existing sidewalks along existing streets that had sidewalks
- Installed 1.2 kms of new multi-use trail (Trans-Canada Trail from Lansdowne to Technology)
- Installed 2.2 kms of new multi-use street trails (The Parkway, Brealey Drive and River Road)
- Coordinated location of waste/recycling bin locations (Lansdowne, Chemong)
- Consulted on Nassau Mills Road multi-use trail from Pioneer Road to the Faryon bridge
- Consulted on the Trans Canada Trail from Lansdowne Street to Technology Drive
- Consulted on Otonabee River Trail Extension around Little lake along Crescent Street
- Consulted on the Parking, Loading and Driveways section of the zoning by-law

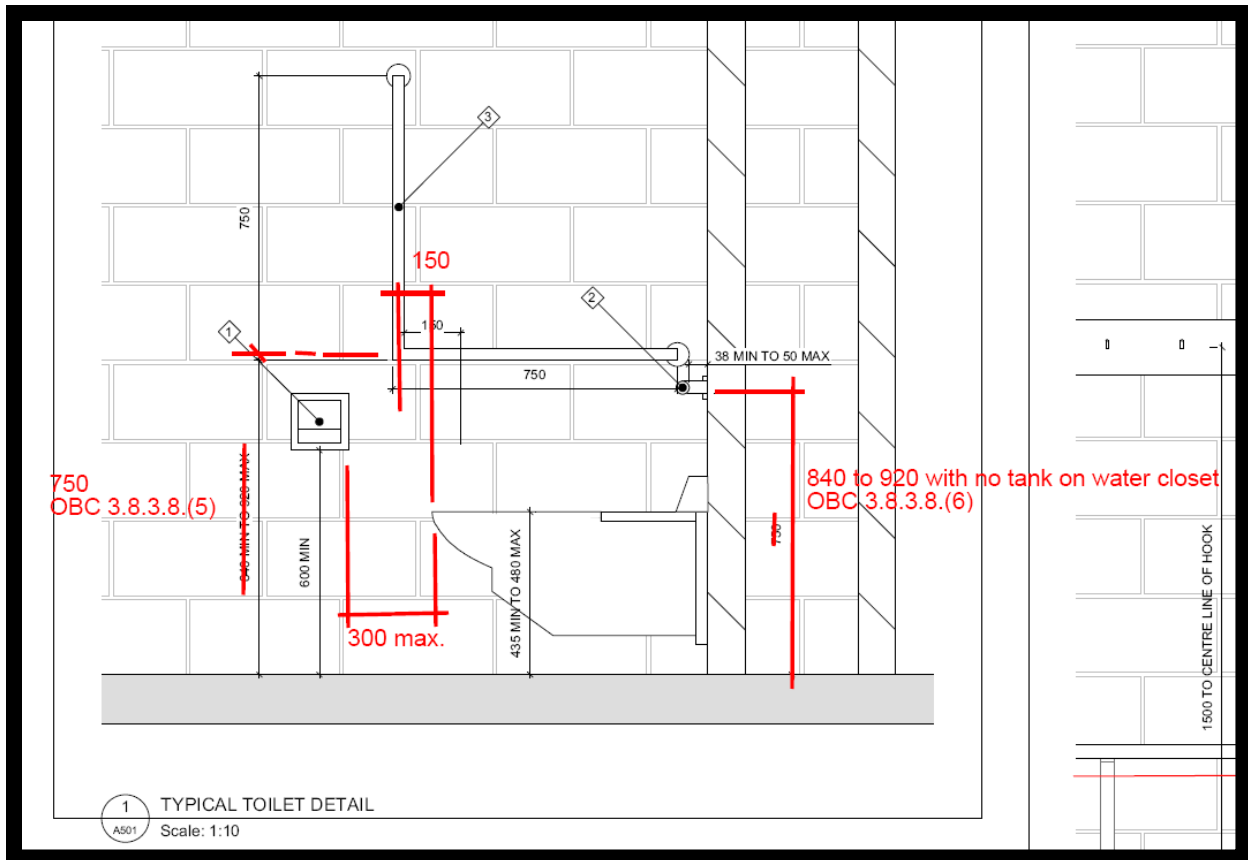

City Buildings

- Consulted on Social Services interior renovations
- Consulted on Art Gallery of Peterborough mechanical upgrades and interior alterations
- Consulted on Art Gallery of Peterborough temporary space at 420 George Street
- Consulted on King Street and Simcoe Street Parking Garage rehabilitation project
- Consulted on Peterborough Transit Terminal interior renovations
- Consulted on Peterborough Memorial Centre new storage building
- Consulted on Peterborough Memorial Centre flooring upgrades
- Consulted on Evinrude Centre flooring upgrades
- Consulted on City Hall elevator upgrades
- Consulted on City Hall second floor Doris room and men's washroom renovations
- Consulted on City Hall second floor Legal Services renovations
- Consulted on City Hall mechanical room renovations

- Consulted on City Hall lower level Planning Services, washroom and lunchroom renovations
- Consulted on City Hall second floor Engineering Services renovations
- Consulted on Delafosse Library mechanical room renovations
- Consulted on Police Services mechanical upgrades
- Consulted on Queen Alexandria exterior ramp installation
- Consulted on Peterborough Public Library renovations and addition

The City of Peterborough is committed to demonstrate leadership for accessibility in the community.

Our goal is to meet the diverse needs of all people, and follow the principles of dignity, independence, integration and equal opportunity.

We will strive to achieve an inclusive environment for our facilities, goods, services, employment, information and transportation.

Statement of Commitment to Accessibility
City of Peterborough

Status Report on the Accessibility Standards for Customer Service

Ontario Regulation 429/07 (ACS)

The City maintained momentum through 2014 and 2015, receiving feedback from people with disabilities and improving the accessible customer service experience.

All new employees, volunteers and organizations we do business with continue to be trained on the Accessibility Standards for Customer Service. They are trained on how to assist people with disabilities by starting with the “How can I help you” approach.

As part of the on-going training program, the City partnered with Epilepsy Ontario to roll out an [Epilepsy Simulator](#) that explains what to do when someone has a Tonic/Clonic seizure. The City continues to develop new relationships that include international accessibility professionals, as part of an on-going strategy to share resources such as the powerful four minute course called [Focus on the Person, Not the Disability](#).

Accessibility courses are available on the Accessibility section of the City’s website. www.peterborough.ca/accessibility

The City moves quickly to respond to accessibility issues raised by the public. Solving an issue for one person by creating a new barrier for another person is never acceptable. Issues are thoughtfully investigated in a timely manner with the goal of finding an inclusive solution that benefits people of all abilities.

ACS

Accessible picnic tables under the Hunter Street bridge

Status Report on the Integrated Accessibility Standards

Ontario Regulation 191/11 (IASR)

The IASR is a very broad regulation. The requirements range from limiting the amount of flashing on a website to standardizing minimum lighting on conventional transit vehicles. It is the regulation that is having a major effect on making information, employment, transportation and public spaces accessible in Ontario.

Since there are so many requirements, this section starts off with a chart that summarizes the IASR requirements that apply to the City and lists the compliance deadline and compliance status.

You'll then find a break down of the specific sections of the IAS regulation that required action in 2014 and 2015 to meet compliance deadlines of January 1, 2014 and beyond. Each section reports on compliance status, lists new action required and includes a background narrative.

IASR

2014 + 2015 Action

Self-service Kiosks

AODA reference:	IASR section 6
Deadline and status:	January 1, 2014 deadline - Compliant
Action(s) required:	1. Continue to incorporate accessibility into new of kiosks.

Self-service kiosks purchased throughout 2014 and 2015 such as automated banking machines (ABMs), point of sale systems and vending machines incorporated accessible features. For example, ABMs purchased for various facilities across the City include a beeping feature to acknowledge when a button is pressed.

Training

AODA reference:	IASR section 7
Deadline and status:	January 1, 2014 deadline - Compliant
Action(s) required:	<ol style="list-style-type: none"> 1. Continue to deliver and record training. 2. Update existing training modules as required.

The time spent on developing a custom City of Peterborough accessibility training program in 2013 simplified the delivery and record keeping of IAS training throughout 2014 and 2015. Training was provided to employees, volunteers and organizations we do business with.

Mandatory AODA courses are automatically assigned to all new employees through the City's learning management system. Additional courses specific to a person's duties are typically delivered in a classroom setting, such as the Transportation Standards module which is delivered to all staff associated with Peterborough Transit.

The City also shared training resources with organizations such as Peterborough Police Services, Peterborough Utilities Group, and Ministry of Natural Resources and Forestry as part of our commitment to demonstrate leadership for accessibility in the community.

Feedback

AODA reference:	IASR section 11
Deadline and status:	January 1, 2014 deadline - Compliant
Action(s) required:	1. Provide staff with accessibility checker software tools.

The City will make accessible formats and communication supports available for all feedback processes. We also notify the public that information in an accessible format is available, upon request. A [Request for Information in an Accessible Format Form](#) is available on our website.

(peterborough.ca/Living/Accessibility_News/Feedback__Request_Information__Contact.htm)

City business often requires consulting with the public. City staff and project consultants are required to make materials as accessible as possible, following the City's Guide to Accessible Documents.

Accessible Formats and Communication Supports

AODA reference:	IASR section 12
Deadline and status:	January 1, 2015 deadline - In Progress
Action(s) required:	1. Provide staff with accessibility checker software tools.

The City makes accessible formats and communication supports available for people with disabilities. We don't charge more than the regular cost charged and we work with the person to determine the most appropriate accessible format or communication support. We notify the public that information is available in an accessible format, upon request.

Accessible Website and Web Content

AODA reference:	IASR section 14
Deadline and status:	January 1, 2014 deadline (Level A) - In Progress January 1, 2021 deadline (Level AA) - In Progress
Action(s) required:	<ol style="list-style-type: none"> 1. Implement a major website refresh for peterborough.ca. 2. Make all new websites comply with WCAG 2.0. 3. Provide captions for pre-recorded Council meeting videos.

The City has technical accessibility obligations related to websites. We must meet international website standards known as WCAG 2.0.

Over the past year, we have made great strides towards making our websites accessible. Audits are performed weekly to ensure new content added to the websites is accessible. However, there are accessibility issues that exist on most of our websites that are out of the City's control, due to limitations of the current content management system.

The City's main website, www.peterborough.ca, is beginning to lag behind current expectations in both function and design. As a key communication tool for the City, a corporate website refresh will ensure full compliance with the AODA requirements for website accessibility.

The refresh will also present an opportunity to make the website mobile friendly, which greatly enhances access to information for people with disabilities.

What does WCAG 2.0 mean?

The WCAG standard explains how to make web content more accessible. It is divided into three conformance levels: A, AA, and AAA. The more A's, the more accessible the website will be.

Colour contrast example:

Level A – colour must not be used as the only way to make information stand out

Level AA – text and images must have a good mid-range contrast

Level AAA – requires extremely high contrast and limits the choice of colours

Recruitment

AODA reference:	IASR sections 22 and 23
Deadline and status:	January 1, 2014 deadline - Compliant
Action(s) required:	No action required.

The City includes “accommodation, upon request” statements on job advertisements and as part of phone call scripts to invite applicants to interviews. As a result, the City provides accommodations to applicants with disabilities who request them.

Notice to Successful Applicants

AODA reference:	IASR section 24
Deadline and status:	January 1, 2014 deadline - Compliant
Action(s) required:	No action required.

The City notifies successful job applicants of policies for accommodating employees with disabilities when making offers of employment.

Informing Employees of Supports

AODA reference:	IASR sections 25
Deadline and status:	January 1, 2014 deadline - Compliant
Action(s) required:	No action required.

New employees are notified by offer letters that the City has policies to support employees with disabilities. Existing employees are notified when new processes are created or there is a change to existing policies and procedures. All documents are available on the City intranet.

Accessible Formats and Supports for Employees

AODA reference:	IASR section 26
Deadline and status:	January 1, 2014 deadline - [Confirm with HR]
Action(s) required:	1. ?

Where an employee with a disability requests it, the City will consult with the employee to provide and arrange for accessible formats and communication supports for information needed to perform the employee’s job and information that is generally available to employees in the workplace.

Human Resources work with managers to consult with the employee making the request and determine the suitability of an accessible format or communication support. This information is documented in an individual accommodation plan.

Workplace Emergency Response Information

AODA reference:	IASR section 27
Deadline and status:	January 1, 2012 deadline - [Confirm with HR]
Action(s) required:	<ol style="list-style-type: none"> 1. HR to provide emergency response plans as required. 2. Manager of Emergency Management and HR to ensure coordination with the City's Emergency Response Plan.

The City is required to provide an emergency response plan for employees with disabilities as soon as practicable after they become aware of the need for it. With consent from the employee with a disability, a co-worker will be designated to provide assistance during an emergency. The emergency plan may require updating when the employee with a disability moves to a different location in the organization, when the individual accommodation plan is reviewed and when the City reviews its general emergency response policies.

Documented Individual Accommodation Plans (IAPs)

AODA reference:	IASR section 28
Deadline and status:	January 1, 2014 deadline - [Confirm with HR]
Action(s) required:	<ol style="list-style-type: none"> 1. HR to develop a process for documenting IAP's

The City is required to have a written process to develop an IAP for employees with disabilities. The process for developing IAPs needs to include various details, such as how the employee can participate in creating the IAP, the frequency of when the IAP needs to be reviewed and how requests for an accommodation are denied.

Return to Work Process

AODA reference:	IASR section 29
Deadline and status:	January 1, 2014 deadline - Complete
Action(s) required:	<ol style="list-style-type: none"> 1. HR to use IAP's as part of the return to work process.

HR developed a Return to Work/Employment Accommodation (RTW/EA) Program for employees who have been absent from work due to a disability and require accommodations in order to return to work. The program outlines the steps to facilitate the employee's successful return to work.

[HR to provide wording on success of the modified work program.]

Performance Management, Career Development and Advancement, Redeployment

AODA reference:	IASR sections 30, 31 and 32
Deadline and status:	January 1, 2014 deadline - [Confirm with HR]
Action(s) required:	1. HR to update the Annual Performance Review document

The City will take into account the needs of employees with disabilities, as well as their individual accommodation plans throughout the employment life-cycle, including when completing annual performance reviews for employees, adding responsibilities to a position, or moving an employee to another position in the organization.

Training for Conventional and Handi-Van Service

AODA reference:	IASR section 36
Deadline and status:	January 1, 2014 deadline - Compliant
Action(s) required:	1. Continue to deliver training to all new Transit staff.

Peterborough Transit trains all new staff on the safe use of accessibility equipment, how to deal with situations where there are temporary barriers or when accessibility equipment on a vehicle fails and how to assist people with disabilities in emergency situations.

Fares for Support Persons on Transit Service

AODA reference:	IASR section 38
Deadline and status:	January 1, 2014 deadline - Compliant
Action(s) required:	No action required.

Peterborough Transit allows a support person to accompany a person with a disability for free. The "Need for Support Person Application" is available on the Peterborough Transit section of the main city website.

Electronic Pre-Boarding Announcements

AODA reference:	IASR section 51
Deadline and status:	January 1, 2017 deadline - Compliant
Action(s) required:	No action required.

Peterborough Transit's conventional vehicles are equipped with a device that announces the route, direction, destination or next major stop. It helps people determine which bus to ride. Announcements are made through an electronic audible system and visual display system.

With the purchase of six new conventional transit buses in 2015, the fleet is currently 90% accessible. The City targets to have a 100% accessible fleet by 2018.

Electronic On-Board Announcements

AODA reference:	IASR section 52
Deadline and status:	January 1, 2017 deadline - Compliant
Action(s) required:	No action required.

Peterborough Transit's conventional vehicles are all equipped with a device that announces all the available route stops while riding the bus. The announcements are made through an electronic audible system and an electronic visual display system located in the vehicle.

Categories of Eligibility for Handi-Van Service

AODA reference:	IASR sections 63
Deadline and status:	January 1, 2017 deadline - In Progress
Action(s) required:	1. Implement new Handi-Van Eligibility Application Package.

A new Handi-Van Eligibility Application Package will measure a person's ability to use the conventional transit to determine if they are eligible to use the Handi-Van service.

There will be three levels of eligibility:

1. Unconditional - eligible for all trips
2. Conditional - eligible for some trips with barriers that limit ability to use conventional transit
3. Temporary - eligible for unconditional or conditional categories for a limited time

Eligibility Application Process for Handi-Van Service

AODA reference:	IASR section 64
Deadline and status:	January 1, 2014 deadline - In Progress
Action(s) required:	1. Implement new Handi-Van Eligibility Application Package.

When implemented, the Handi-Van Eligibility Application Package will formalize the process for handling applications that take longer than 14 days to determine eligibility, make it clear there is no fee for the application, make the application available in an accessible format, establish an appeal process, and outline how personal information collected in the application will be used.

Emergency and Compassionate Grounds for the Handi-Van Service

AODA reference:	IASR section 65
Deadline and status:	January 1, 2014 deadline - Compliant
Action(s) required:	1. Implement new Handi-Van Eligibility Application Package.

People with disabilities may use the Handi-Van service because of an emergency or on compassionate grounds, earlier than the standard application timeline of 14 calendar days.

Booking and Trip Restrictions for Handi-Van Service

AODA reference:	IASR sections 71 and 72
Deadline and status:	January 1, 2014 deadline - Compliant
Action(s) required:	1. Develop solutions to improve booking demand issues

Peterborough Transit complies with the requirement to provide same day Handi-Van service to the extent that it is available. When same day service is not available, a booking can be made up to three hours before the published end of service period on the day before the intended day of travel. This means people can call the Handi-Van reservation line at 7:45 pm on a Tuesday evening for a trip at 6:00 am on Wednesday morning, if it's available.

Peterborough Transit also complies with the requirement to not limit the number of trips a person with a disability is able to request. The City does not have a policy that limits the availability of the Handi-Van service. - **[Confirm with Transit]**

Despite compliance, it is still very difficult to make a reservation on short notice. The Handi-Van service is in demand, the number of riders is increasing weekly and it can be frustrating for eligible users to schedule their lives.

The Accessibility Advisory Committee's Transportation sub-committee discusses this issue as a standing item on their meeting agenda and continues to work with the Manager of Transportation to make the system as efficient and successful as possible.

Recreational Trails and Beach Access Routes

AODA reference:	IASR sections 80.6 to 80.15
Deadline and status:	January 1, 2016 deadline - Compliant
Action(s) required:	<ol style="list-style-type: none"> 1. Continue to incorporate accessibility into projects. 2. Review opportunities to make Beavermead and Rogers Cove beaches accessible.

The City has a thorough process to ensure trail projects meet technical requirements such as width and slope of trail, surface material, signage and even location of rest areas.

An accessibility lens is used throughout the planning and design stages of all trail projects. The City's Interdepartmental Trails Committee is represented by two staff from the Accessibility Office, the Accessibility Advisory Committee provides recommendations to the design team and the Accessibility Compliance Coordinator provides thorough reviews of all technical details.

There have not been any beach access projects over the past two years, but we are hearing a need to make Beavermead and Rogers Cove beaches accessible.

Outdoor Public Use Eating Areas

AODA reference:	IASR sections 80.16 to 80.17
Deadline and status:	January 1, 2016 deadline - Compliant
Action(s) required:	1. Continue to incorporate accessibility into projects.

The City now incorporates minimum 20% accessible picnic tables for projects that include public use eating areas. The accessible tables are always on a level, firm and stable surface and connected to an accessible path.

Accessible tables were recently installed in James Stevenson Park under the Hunter Street bridge, Beavermead campground and at the new splash pad and playground in Kinsmen Park.

Outdoor Play Spaces

AODA reference:	IASR sections 80.18 to 80.20
Deadline and status:	January 1, 2016 deadline - Compliant
Action(s) required:	1. Continue to incorporate accessibility into projects

A big part of making a play space accessible is to provide an accessible path to the space, with easy access to amenities such as parking, washrooms, change rooms, seating, garbage and recycling stations. This strategy was used on new facilities such as Rogers Cove splash pad, Kinsmen Park splash pad, and various new playgrounds in the City.

New and retrofitted playgrounds no longer include a sand surface. The City typically installs engineered wood fiber for main play space areas and enhances accessibility with rubber systems at pathway zones that require fall impact properties. Key staff received certified training to plan for the many details involved in making a playground accessible.

The City's Accessibility Advisory Committee is also involved in the play space planning process and provides advice on details for each project.

Public Works employee installing a tactile attention indicator in a sidewalk

Exterior Paths of Travel

AODA reference:	IASR sections 80.21 to 80.31
Deadline and status:	January 1, 2016 deadline - Compliant
Action(s) required:	<p>As per the 2015 Walk Friendly Community feedback report:</p> <ol style="list-style-type: none"> 1. Apply progressive street & intersection design standards. 2. Incorporate elements of “complete communities” into site plan agreements and stop allowing single use, low density residential development. 3. Require developers to submit a Transportation Demand Management (TDM) plan as part of site plan agreement. 4. Develop a complete streets policy. 5. Develop a traffic calming policy. 6. Use curb radius of 6m on new neighbourhood streets and collectors and maximum 12m radius on arterial streets. 7. Display pedestrian signals with every phase of the light. 8. Add countdown signals to pedestrian signals. 9. Develop a priority list of locations for mid-block crossings. 10. Paint ladder markings at pedestrian crossings.

There are a lot of important details beyond pouring concrete to make a sidewalk user friendly.

For example, new sidewalks are separated from the road by a grassed boulevard and where that is not possible, the sidewalk is built wider than standard. The extra buffer space allows for snow storage and keeps pedestrians at a comfortable distance from vehicular traffic.

All of the City’s new signalized intersections include audible and vibro-tactile walk indicators. At intersections, the sidewalk has a smooth transition from road to sidewalk. New sidewalks also include tactile attention indicators in strategic locations to call attention to vehicular traffic for people with vision loss. These features make it easier for all users to cross a street.

The thorough accessibility review process for sidewalk planning has even resulted in the installation of benches in key locations along new sidewalks. A bench placed in a nice setting with shade provides a place to rest, promotes social activity, and makes the City more beautiful. Key City staff work as a team to build safe and inclusive streets that accommodate all modes of transportation.

The City’s Accessibility Advisory Committee plays a major role in supporting the need for sidewalks on both sides of the street and they help prioritize sidewalk repairs and missing curb cuts.

Peterborough recently received a silver 2015 Walk Friendly Community designation. The feedback report praised the City’s progressive sidewalk policy, Active Transportation by-law and the on-going implementation of the Sidewalk Strategic Plan. The report also recommends all the actions listed in this section to support a safe and comfortable walking environment.

Accessible Parking

AODA reference:	IASR sections 80.32 to 80.39
Deadline and status:	January 1, 2016 deadline - In Progress
Action(s) required:	1. Revise Zoning by-law, s4: Parking, Loading, Driveways.

Ontario legislation now mandates some details for accessible parking spaces that are of a higher standard than the City's current zoning by-law.

New and retrofitted parking lots with more than 25 parking spaces now require two types of accessible parking spaces. The "Type A" space is a larger 3.4m wide space with a 1.5m access aisle and is intended to accommodate a person who uses a vehicle equipped with a mechanical lift or wheelchair ramp. The smaller "Type B" space has a similar width as a regular parking space but has a 1.5m access aisle and is intended to accommodate people who use assistive devices but don't need the extra space for a vehicle lift or ramp. New and retrofitted City parking lots, such as the new Eastgate parking lot off Ashburnham Drive, meet new standards for accessible parking.

There is also a need to locate and design accessible on-street parking spaces in a way that makes it easy for people to get from their vehicle to the adjacent sidewalk. The City consults on the need, location and design of accessible on-street parking spaces with the public, people with disabilities and the City's Accessibility Advisory Committee.

Eastgate parking lot with pedestrian access aisles (located off Ashburnham Drive)

Obtaining Services

AODA reference:	IASR sections 80.40 to 80.43
Deadline and status:	January 1, 2016 deadline - Compliant
Action(s) required:	1. Develop learning material for building permit applicants.

As part of a thorough review process to incorporate accessibility into City facilities, new and retrofitted service counters, queuing guides and waiting areas are now designed to accommodate people who use mobility aids. New counters at Social Services and Peterborough Transit Terminal have sufficient knee clearance and enough floor space in front of the counter. Queuing guide lines will be wide, cane detectable, and easy to turn where lines change direction. Moving forward, all waiting areas will have at least one accessible seating area.

Maintenance of Accessible Elements

AODA reference:	IASR sections 80.44
Deadline and status:	January 1, 2016 deadline - In Progress
Action(s) required:	1. Update multi-year accessibility plan

The City's multi-year accessibility plan needs to include procedures for preventative and emergency maintenance of the accessible elements in public spaces. The next update to the accessibility plan will outline how to maintain recreational trails, beach access, outdoor public eating areas, outdoor play spaces, exterior paths of travel, accessible parking and service areas.

The City already has a process in place to deal with temporary disruptions when accessible elements in public spaces are not in working order.

Accessibility Reports

AODA reference:	IASR sections 86.1
Deadline and status:	Every 2 years - Compliant
Action(s) required:	1. File accessibility report by December 31, 2017

The City is required by law to submit an accessibility report every two years. The latest accessibility report was filed in December 2015 and the next report is due December 2017.

Ontario's 2012 Building Code was amended on January 1, 2015

Status Report on Ontario's Building Code

Ontario Regulation 332/12 (OBC)

The OBC now substantially enhances accessibility in newly constructed buildings and existing buildings that are extensively renovated, maintaining Ontario's leadership role in barrier-free design.

The new 2015 requirements include better access to all storeys within a building, enhanced barrier-free paths of travel, and requirements that make apartment buildings easier to visit. For more information, refer to the [Ministry of Municipal Affairs and Housing's Ontario Building Code website](#).

(www.ontario.ca/laws/regulation/110191)

The Accessibility Office and the City's Accessibility Advisory Committee review renovation and new construction projects for City owned facilities.
