Budget and Financial Implications

There will be financial implications associated with printing the completed brochure. The cost of printing will be included in the Accessibility Operating Budget.

Background

At the January 8, 2014 AAC meeting, the Committee reviewed the priority list which was compiled in the fall of 2013 and it was decided that their next project would be to create an information brochure. The brochure is to be developed by the AAC to educate the public on the accessibility of City of Peterborough facilities.

AAC members were requested to bring ideas pertaining to a brochure to be discussed at the February 2014 meeting. Attached please find two accessibility pamphlets to provide additional information to the AAC members.

This discussion will be a recurring item on the agenda as it will require further follow up with Committee members.
