Why Transit Advertising?

It is an effective and highly visual option to achieve marketing dominance. Transit Advertising is NOT limiting to specific listeners, readers or demographics... it captures EVERYONE. The value received from a "moving billboard" when compared to traditional forms of advertising is unmatched!

Transit advertising takes your message to Where The People Are and Going To! From Downtown to Uptown... to the Local Shopping Malls... University and College... High Schools and Parks... Arenas, Library and other Community Centres. Your message is presented to consumers in other vehicles, on foot and at bus shelters. Buses cover the entire city using all of the major streets and roads including residential areas where people don't even have to leave home to see your message.

The Power of transit advertising is in the numbers...

- 43 buses in the fleet
- 10 accessible vans
- 16 routes are travelled daily throughout the City of Peterborough
- There are 621 bus stops throughout the City
- Buses are on the road between 17-21 hours a day, 7 days a week
- Passenger numbers are in excess of 3.4 million riders per year

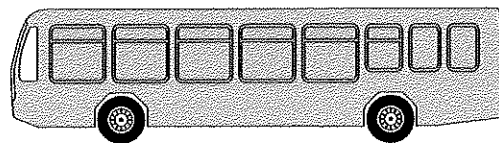

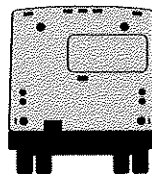

A creative lineup to suit your Budget and Exposure Needs.
