Municipal Cultural Plan

The Municipal Cultural Plan (MCP) is the City's plan to strengthen Peterborough's cultural sector, build a prosperous creative economy and integrate culture into all facets of city planning and decision-making.

Accomplishment of the plan's strategic objectives requires collaboration across all City departments, the integration of culture into formal policies, plans and projects and building productive working relationships with key partners throughout the community.

In order to document progress on its strategic objectives, the MCP recommends that a report card be prepared on an annual basis.

The room was alive with conversation about artist's abilities and needs, about professional development opportunities and working with local businesses and about encouraging entrepreneurship - working together to make it happen.
