Background

The 2017 Hunter Street project is not taking place until Public Works is able to move their materials to a new location. The Public Art Advisory Committee selected the Ashburnham Realty property at 278 Simcoe Street as the preferred location for a replacement project. This location is one of the ones identified in the 2016 Wall Call for locations for DBIA projects.

Artspace is managing this project. A national artist call was conducted with submissions reviewed by the jury. Jon Lockyer, the project manager will provide a presentation on the process and the jury's recommendation.
